

**10<sup>TH</sup> AIS** Antibody Industrial  
2022 Symposium

**JUNE 28-29, 2022**  
**MONTPELLIER, FRANCE**

## **10<sup>th</sup> Antibody Industrial Symposium 2022**

**June 28-29, 2022 – Montpellier**

**[www.aiscongress.com](http://www.aiscongress.com)**

### **Abstract Submission Guidelines**

In order to provide visibility and promote innovation in the field of ***Therapeutic Antibodies, Ab-like Molecules, Adoptive Cell Therapy and other innovative ATMPs for fighting Diseases***, a call is open on for abstract submission for:

- a **Pitch presentation** of 10min at the session “*Innovative Approaches and New trend Technologies*” that will be held on Tuesday 28<sup>nd</sup> June 2022;
- a **Poster presentation** at the poster session.

These are great opportunities for academic laboratories and companies to share their new work!

The AIS2022 Scientific Committee will review the abstracts for innovative products, technology and research.

All submissions must be non-promotional. Abstracts containing commercial products, technologies or services must provide competitive context, and show no commercial bias.

Fill-in the Abstract Form and send it to: [ana-sofia.antunes@mabdesign.fr](mailto:ana-sofia.antunes@mabdesign.fr)

**Deadline for abstract submission:** 1<sup>st</sup> April 2022

**Notifications to the authors:** 2<sup>nd</sup> May 2022

The AIS2022 Organization will notify you via email whether your presentation has been accepted or not to give a pitch. If your abstract is accepted, you will have to register to the AIS2022 on the website **until 13<sup>th</sup> May 2022** if it has not been done before.

## Evaluation Criteria

**Eligible authors:** Start-up, SMEs, companies or research laboratories that want to share an innovative project, product or technology related to Innovative Approaches / Technologies for fighting diseases.

**Main topics:** Therapeutic Antibodies (mAbs), ADCs, Ab-like Molecules, Fusion proteins, Adoptive Cell Therapy, innovative technologies, drug discovery, AI, in silico, biomarkers, diagnostic, preclinical models, biological drugs characterization tools.

### Selection criteria

The most successful abstracts will include new breakthrough technologies that can contribute to the new therapeutic approaches as well as new products/technologies that open a new vision for this field. Priority consideration will be given to abstracts that feature:

- an innovative character of the technology or therapeutic product
- a health/medical benefit associated
- a breakthrough research project that offers new ideas and opportunities in the field of immunomodulation
- projects that can engage the industrial sector and bring economic benefits
- Innovation that goes beyond traditional approaches.

## Speaker responsibilities

Each presenter chosen is responsible for all expenses related to his/her participation in AIS2021 including registration, transportation and accommodation.

By submitting an abstract, you grant the organizers permission to publish the abstract in hard copy or in electronic/digital formats.

## Abstract Format

### Abstract Title (Bolded) –Calibri font, size 12

**Title:** The title should clearly define the content of the abstract.

**Author(s):** if concerned include the names of all contributing authors. Underline the speaker's name.

**Author's affiliation:** indicate postal address of the authors.

Example : First author's First Name First author's **LAST NAME<sup>1</sup>**, Second author's **First name** second author's **LAST NAME<sup>2</sup>**, etc

<sup>1</sup>Department, Organization, Country

<sup>2</sup>Department, Organization, Country

### **Abstract (maximum 500 words)**

Use only standard keyboard characters. Reduce abbreviations to a minimum, especially non-standard one, and define at first use. No tables or figures should be inserted into the abstract title or text.

**Font & Size** : Calibri font, size 11

Structure your abstract according to:

- Background:** describe the scientific or/and medical context that lead to your innovation.
- **Offer/project description:** describe your project, research or product. Include in your description its aims, its methodology and its benefits/solutions
- **Innovative strength & Applications:** explain the innovative asset and specificity of your offer from a scientific, medical, technical and economical point of view. Indicate its different applications.
- **Conclusion:** explain how your work contributes to the field of Immunomodulation with therapeutic antibodies.

**Keywords:** please provide 5 keywords that describe your presentation, its targets and the goals addressed.

Abstract should be **saved under the Authors Name (FirstName-LastName)** and in .docx format. No other format will be accepted.
